

New and updated parking regulations May 2019

Toppe Housing Association have entered an agreement with Security Park on the control and oversight of parking spaces in the association.

- All driving on the walkways within the association's property is prohibited. Exceptions to this rule are: Taxi, moving vans, cleaning services, emergency vehicles or other vehicles that act as ambulances and vehicles registered as service vehicles.
- Parking of motor vehicles with valid electronic registration is only allowed on parking spaces and in garages. Motor vehicles that are parked outside the marked fields will be charged a fee without notice.
- It is possible for unit holders to be allocated a fixed parking space for a rent of current tariffs per month on outside parking and garages. The parking spaces are marked. Unit holders are responsible for registering the right registration number in their own parking spaces. No cars need zone sticker. Should you use a rental car, please enter the registration number on the rental car, and then you can park at your own private parking space.
- Unit holders are required to make their guests aware of the parking conditions. Guests should be referred to guest parking. Guests who use the space for more than 3 days within a 7-day period, MUST contact the board office or the caretaker's office for delivery of a time-limited guest sticker. It is not allowed for unit holders to park on the guest parking in their own parking area.
- Parking of trucks, larger vans and campers shall be carried out at the designated place.
- Caravans and trailers may only be parked in the designated place. The application for a fixed parking space is sent to the board. Car trailers as residents borrow when moving, handling goods etc. can now be parked on guest parking spaces for up to 3 days when hanging a laminated guest lip on the trailer.
- It is not allowed to have separated vehicles standing in the parking lot or in the garage. Separated vehicles shall immediately and not later than two days be reported to the board office and removed within 1 month.
- Dispensation from these rules may be sought in writing to the board.
- It is not allowed to rent out your own or other parking spaces within the housing association

- The rules come into force from the time the board decides. Coarse breach of the rules will have the same effect as a violation of the house rules.

A guest parking sticker can be obtained from the board office or the caretakers office. The request can be made by phone or mail. If residents have trouble getting into our offices during the opening hours, we will arrange to deliver the oblate in the mailbox belonging to the resident

Rent of parking.

When you rent a parking space, you will receive an e-mail from leieparkering.no, do the following:

1. Log on to www.leieparkering.no
2. Choose 'Mine parkeringsplasser' in the left column. There you will see which parking spaces you have registered.

NB! If you are registered with one parking space, but should have two, do the following:

1. Open the first email you received from leieparkering.no and try to register again. If you get "koden er utløpt", the parking space should already be registered in the system.
2. Open e-mail number 2 from leieparkering.no. Try signing up again.

Then proceed until you have registered all your parking spaces.

If you have used different e-mail addresses when registering, please contact Profectum AS (driver Park-Id), by phone [+47 240 77 100](tel:+4724077100).

Any questions related to parking, please contact the board office during opening hours.

If you need temporary parking, you can pick up a parking permit at the board office.

Toppe Housing Association has entered into an agreement with Security Park regarding control and oversight of parking spaces in the association. If you wish to appeal for a charge, you must file a complaint against Security Park and not the board office.

Otherwise, refer to the signposting of rules in the parking lots.
